"I am drawing a bear".—Dimiyana

"I am painting using mud".—Aaliyah

"Mud".- Yousif

"I am jumping on the leaves".—
Abdelhamid.

"Jump" - Anaya

Welcome to Forest School!

This week the children in Red Room started Forest School. We attend Forest School every Tuesday and Thursday. The purpose of Forest School is support children to learn socially, emotionally, physically and intellectually in the outdoor environment. Red Room put on their protective clothes and then made their way down to Forest School. Frist, they sat at base camp and listened to the birds singing and discuss what the weather is like. Then they discussed ways to keep safe in Forest School, such as not running and not picking things up from the floor and putting them in their mouths. The children had great fun exploring Forest School. They particularly enjoyed playing with the water in the mud kitchen, mud painting and searching the trees for different animals.

Forest school week 2

Making Bird Feeders

Last week in Forest School, the children showed a keen interest in listening too and observing the birds that appear in forest school. To try and encourage more to come and say hello, we made bird feeders. The children mixed a combination of flour and water, and then added sun flower and pumpkin seed to their mixture. They then placed the mixture into Molds and left it to set in the freezer. Once this was done, the bird feed was removed from its Mold and hung in Forest School for the birds to enjoy.

Children's comments:

"I can hear the birds, tweet tweet"- Clayton

"The birds are in the tree"- Nassor

"We are making bird food"- Alaya

"It smell funny"- Lina

"I do it, I mix it"- Lemuel
