

# Chinese New Year

The children in the red room have been celebrating Chinese New Year by taking part in different activities. This year the Chinese calendar is focused on snakes. The children created their Chinese snake using paper plates. Firstly they painted the plate all red and yellow and then had adult support to cut out the snake shape. The children also created Chinese lanterns using paper tissue. They have also made handprint dragons and number writing in Chinese. The children also drew a snake and had a go writing the words in Chinese. They have watched the Chinese dragon dance and understand why Chinese New Year is important and how people from China Celebrate it.
