

# Brearley Growing Garden

On 6th March, the children planted a variety of plants such as mint, strawberries and peas. We discussed what plants need to grow, including compost, seeds or plant pots, plenty of water and sunlight. The children enjoyed digging and planting in the garden.

We also sang "Mr Sun" to help the children understand that sunlight helps plants grow and to introduce them to the lifecycle of a plant. The children are excited to watch the plants grow and are looking forward to eating the fruits and vegetables they have planted.

## Children's Comments

Elhan said, "I am planting a strawberry."

Minoas said, "Plant, mud, water."

Sama said, "We need mud, water, seeds and sun to grow."

Makhissa said, "Mint is growing tall like a beanstalk."

Erad said, "Strawberries are yummy."
