

Role Play— Home Corner

October 2024

The children have been exploring the Home Corner this month. They have enjoyed playing with things that are familiar to them. While taking part in Role Play, the children can act out real life experiences and also begin to use their imagination to extend their thoughts and ideas. They can build their social skills by sharing their space with their peers. They can also enhance their language skills when exposed to new words.

Polly put the kettle on

This month's nursery rhyme.
